Agricultural water management

www.elsevier.com/locate/agwat

Contents of *Agricultural Water Management*, Volume 49

VOLUME 49 ISSUE 1 **2 JULY 2001**

Yield and fibre quality of cotton cultivars as affected by the build-up of sodium in the soils with sustained sodic irrigations under semi-arid conditions
O.P. Choudhary, A.S. Josan and M.S. Bajwa (Punjab, India) 1

Field water management to save water and increase its productivity in irrigated lowland rice
B.A.M. Bouman and T.P. Tuong (Makati City, Philippines) 11

Irrigation management and hydrosalinity balance in a semi-arid area of the middle Ebro river basin (Spain)
A. Tedeschi, A. Beltrán and R. Aragüés (Zaragoza, Spain) 31

Crop coefficient of sesame in a semi-arid region of I.R. Iran
A.R. Sepaskhah and M. Andam (Shiraz, Iran) 51

Rainfall interception by olive trees in relation to leaf area
J.A. Gómez, J.V. Giráldez and E. Fereres (Córdoba, Spain) 65

VOLUME 49 ISSUE 2 **17 JULY 2001**

Modelling the effects of soil and water management practices on the water balance and performance of rice
K.B. Singh, P.R. Gajri and V.K. Arora (Ludhiana, India) 77

Irrigation management for optimizing crop production and nitrate leaching on grassland
M.J.D. Hack-ten Broeke (Wageningen, The Netherlands) 97

A simulation model of water dynamics in winter wheat field and its application in a semiarid region
S. Kang, F. Zhang (Shaanxi, PR China) and J. Zhang (Kowloon Tong, PR China) 115

The role of 'virtual water' in efforts to achieve food security and other national goals, with an example from Egypt
D. Wichelns (Kingston, RI, USA) 131

Calculation of Field Manning's Roughness Coefficient
Z. Li and J. Zhang (Beijing, PR China) 153

VOLUME 49 ISSUE 3 **8 AUGUST 2001**

Effects of early soil water distribution on the dry matter partition between roots and shoots of winter wheat
F.-M. Li, X.-L. Liu and S.-Q. Li (Lanzhou, PR China) 163

PII: S0378-3774(01)00109-3

Effects of pre-sowing irrigation and phosphorus application on water use and yield of spring wheat under semi-arid conditions
F.-M. Li, Q.-H. Song, H.-S. Liu, F.-R. Li and X.-L. Liu (Lanzhou, PR China). . . 173
Application of EPIC model for irrigation scheduling of sunflower in Southern Italy
M. Rinaldi (Bari, Italy) 185
Model predictions and long-term trends in phosphorus transport from arable lands in Sweden
B. Ulén, G. Johansson and K. Kyllmar (Uppsala, Sweden) 197
The influence of crop canopy on evapotranspiration and crop coefficient of beans (*Phaseolus vulgaris* L.)
G.A. de Medeiros (Espírito Santo do Pinhal, Brazil), F.B. Arruda, E. Sakai and M. Fujiwara (Campinas, Brazil) 211
A simulation study of chickpea crop response to limited irrigation in a semiarid environment
A. Soltani (Gorgan, Iran), F.R. Khooie, K. Ghassemi-Golezani and M. Moghaddam (Tabriz, Iran). 225
Estimation of crop evapotranspiration of irrigation command area using remote sensing and GIS
S.S. Ray and V.K. Dadhwal (Ahmedabad, India) 239
